|--------------|--------------------|------------|-------------------|
| Hospital No: | MH018421593        | Visit No:  | O42000073967      |
| Name:        | MR PRAKASH JATOO   | Age/Sex:   | 52 Yrs/Male       |
| Doctor Name: | DR. SOMASHEKAR D   | Specialty: | SPINE SURGERY MKB |
| Date:        | 03/06/2026 03:21PM |            |                   |

### Chief Complaints:

Neck pain with upper limb radiation -- Low back pain with lower limb radiation for the last 10 to 12 years

### Past Medical/Surgical History:

Known case of diabetes -- Cardiac stenting done in 2023

### Clinical examination:

Patient not examined physically -- Video consultation done -- Patient walking independently in video call

### Investigations:

MRI (MARCH 2026): Multi-level cervical disc bulge with neural compression without cord signal changes -- L4/5 and L5/S1 lateral recess stenosis with neural compression

**Advice:** Based on the available reports, the patient requires a detailed evaluation along with an LS spineX-ray with lateral flexion and extension views. Depending on the findings, the patient may require ACDF surgery. If diffuse disc bulges, especially at the L4–L5 level, are found to be causing significant compression of the exiting nerve roots leading to severe leg pain, a microdiscectomy surgery may be required. The final line of treatment can be confirmed only after a complete assessment.

### MEDICATION ORDERS

| Drug / Generic Item                                                   | Dosage Qty | Frequency  | Instructions/Notes | Duration  |
|-----------------------------------------------------------------------|------------|------------|--------------------|-----------|
| PYRIGESIC 1000 MG TABLET<br>(PARACETAMOL (80007661))                  | 1000 MG    | BD (1-0-1) |                    | 7 DAY(S)  |
| SHELCAL XT TABLET<br>(CALCIUM-LEVOMEFOLIC ACID-VITAMIN B12-VITAMIN D) | 1250 TAB   | OD (0-1-0) | AFTER FOOD         | 30 DAY(S) |
| GABAPIN NT 100 TABLET 100 MG<br>(GABAPENTIN-NORTRIPTYLINE (80004838)) | 100 TAB    | OD(0-0-1)  | AFTER FOOD         | 30 DAY(S) |
